## **ABSTRACT OF THE 2017/2018 ACTIVITY**

**Membership**     *objectives: conservation, increase and formation of members*

**2018/2019**     The special attention that the club's managers pay to members continued. This year 2 members have requested the transfer (for work reasons) to clubs outside Milan and 2 members have resigned.  
 1 of the transferred and 1 of the discharged asked to remain tied to the club with the registration to the PAF (Friends of the Fair Platform). Premises for a hypothetical return?  
 Lost 4, we have acquired 2, thus reducing the number to 31 members.  
 We reiterate that we are aware that a club's ability to serve the community, support the Rotary Foundation and provide leaders who can serve Rotary, at the district and international level, depends on the number and harmony of its members.

***Public Relations objectives: to provide the public community with information about the Rotary and to promote the club's activity***

2018/2019 On the public image front, the club continued to use its Facebook page and administer the Instagram profile.  
All this also requires a general revision already under consideration with the contribution of one of the new members admitted.

***Administration objectives: to manage the best administration of the club***

2018/2019 The Administration Committee has contributed to the organization of the ordinary and extraordinary programs, the calendar and the weekly meetings of the club, helping the secretary, treasurer, prefect in some tasks assigned to them and carrying out other administrative and operational activities related to the management of the club.

***Service Projects objectives: to develop and to implement educational, humanitarian and vocational projects that address the needs of the communities, at local and international level***

2018/2019 In the Rotary year 2018-2019 our club pursued 13 projects, involving almost all the members, and bringing them to completion 11.  
A subcommittee has been set up for each project.  
Good consolidated relationship with the Rotaract Club Milano Sforza (of which we are the godfathers); their "Mentorship" project was attended by 56 other Rotarians from many RCs in the district giving assistance (tutoring) to as many Rotaractors.  
Within the district we participated in the "RYLA" and an "annual exchange" with an Australian girl.  
Good results on the projects "Premio Marinella", "Support for CAM", "Ambassadors of legality", "GaiaMente", "Books in freedom", "Safe Kindergartens".  
Other projects have continued for years with contributions to Rotary-related organizations, such as "Distance Support in Uganda", "Vision + Onlus".  
Unfortunately the Global Grant has not yet been defined in favor of the "Kinshasa Scholasticate".

***Rotary Foundation objectives: to support the Rotary Foundation through both financial contributions and program participation.***

2018/2019 Rotary Foundation commission has committed itself to spreading the commitment of the TRF in the world to the club, reporting the various news coming from Evasnston on a monthly basis.  
He took care of the donations suggested by the TRF to the annual fund (EREY), to the permanent fund and to the Polioplus fund.  
He worked closely with the Global Grant project committee on Kinskasa which, as already reported, unfortunately has serious delays on its definition

***New Generation objectives: to help young people toward a better future, assisting them to develop their individual capacities***

2018/2019 RYLA: in the district course we have registered the daughter of one of our members.

Support to the Rotaract Club Milano Sforza: as every year we have followed him in his activity giving him the necessary financial support. From the service point of view, we participated in their "Mentorship" project. The Sforza Rotaract participates in our "Books in freedom" initiative

*Twining*

2018/2019      Maintained regular contact. Nothing special to report.

*If you wish to see the projects performed from the foundation of the club up till  
30.06.2018 click here.*
